

Door Tablet EPS

ePaper System for your workspace

Our ePaper devices for desks, meeting rooms and other spaces.
Low cost of deployment and ownership

Easy to install

Works “out of the box” and comes with all the fixtures and fittings needed. It’s easy to mount on any surface including glass, brick, plaster and metal. No wires required for power and networking. Each unit is battery powered which may be supplied by us or bought yourself.

Sturdy

The screen is hard despite the fact its made of plastic. The edges provide an elegant yet hard metallic frame with a sophisticated way to fix the units on any surface. The displays are driven by the Door Tablet ABX2.

Frictionless Deployment

No need for any cables for networking or power. The displays connect to the Door Tablet EPS controller, running on the Door Tablet ABX2 using Bluetooth 5 technology. Batteries needed: EP4 4xCR2450, EP7 6xCR2450. Can also use rechargeable batteries (LIR2450) Due to air freight restrictions we cannot supply batteries, these must be locally purchased.

Display versatility + enhanced integration

Our ePaper devices offers seamless mobile app integration through client-controlled QR codes. They features a wide-angle view for easy status and agenda visibility, highlights busy spaces in red, and allows users to create portrait designs with controlled image quality.

Attractive

It is sleek and slim (1.5cm deep) with two sizes to choose from: The Door Table EP4, a 4” display, and the Door Tablet EP7, a 7.5” display. You may also format the display and change its layout as you wish.

Three Colours

Our ePaper displays show data using a clear Black and White presentation coupled with red “ink” to indicate a current busy state. You can decide the layout and when the “red” is shown.
